

AA

The smarter and
simpler approach to
ACCIDENT MANAGEMENT

We offer a smarter and simpler approach to Accident Management to get your drivers back on the road if their vehicle has been damaged and needs repairing. We work around the clock to look after the whole process, to ensure your business keeps moving.

Reduce Downtime

Improve Cost Control

Provides Cost Certainty

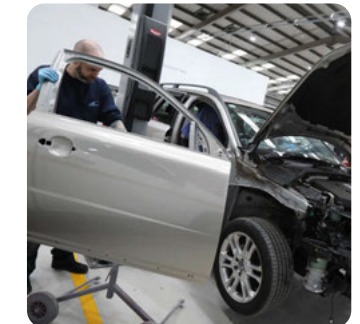

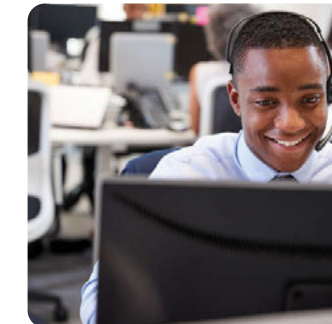

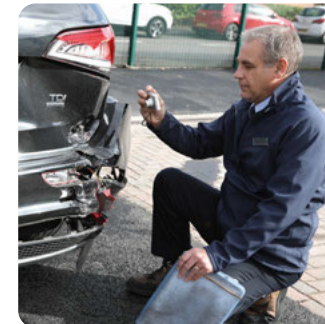

End to End Service

Nationwide Garage Network

24/7 Incident Reporting

Mobility Solutions

Legal Services

If one of your vehicles has been damaged, we know that the whole process to get it back on the road can be somewhat of a bumpy ride, with many stops and starts along the way, which can put a halt to proceedings and waste valuable time and money.

The impact on your business might be more than you might think, from taking up valuable management time, to increasing operating costs.

AA Accident Management will work alongside you to make the journey as smooth and quick as possible. We are available 24/7, and from the moment we are notified, we can make arrangements to collect your driver's vehicle. We will then take it to one of our UK-wide certified garages, whilst still keeping your driver on the move, by providing them with alternative transport. Once in the garage, there is no need to wait for on-site inspections to take place to assess the damage to the vehicle, as we are constantly evolving to find simpler solutions, we use the latest Smart technology and imaging software so our engineers can view the damage remotely, to approve estimates quickly. As soon as the estimate has been approved, work can commence on the vehicle. All repairs are of the highest quality and guaranteed for 3 years.

We take the hassle out of insurance claims by handling them on your behalf, and our service covers uninsured loss recovery, accident recovery, third party and claims handling. If the driver has suffered a personal injury that was someone else's fault, we can help them get fair compensation and back to full health fast.

Your incidents can be available to view on-line at anytime, allowing easy-access to all documentation and instant real-time updates on everything from costings to expected completion dates. As a trusted brand for millions of motorists, and with many proven years of expertise, we have built up a vast network of approved partners, who work closely with us, and as such, we are able to offer fantastic commercial terms and buying power, to keep costs down, and in turn, keep your business on the move.
