against the Cyber Essentials Scheme Test Specification

Level of certification: Cyber Essentials

Scope: Includes internet facing assets, firewalls, network components and workstations located at AA Drive Tech's Basingstoke Offices and cloud infrastructure.

Certification date: October 21st, 2019

Recommended re-assessment date: **October 20th, 2020**

Certificate no.: 0491154765047446

This Certificate confirms that the organisation named was assessed against the Cyber Essentials Requirements dated June 2014, and at the time of testing, the organisation's ICT defences were assessed to meet the Requirements. Cyber Essentials Certification indicates that the organisation has implemented a sensible baseline of organisational cyber security only, and implies no guarantee of effective defence against commodity cyber attacks circumventing this baseline. Organisations are recommended to define and understand the risks to their organisation and take all appropriate action to mitigate or reduce any issues, which may require a greater degree of rigour or technical investment than is required for Cyber Essentials alone.
